

# Secular Education Forum

**The Secular Education Forum (SEF) provides expert advice and opinion to the National Secular Society (NSS) on issues related to education and serves as a network for supporters with expertise in the intersection of education and secularism.**

The SEF's main objective is to advocate the value of secularism/religious neutrality as a professional standard in education. The SEF welcomes supporters of all faiths and none. It provides expert support for the NSS working towards a secular education system free from religious privilege, proselytization, partisanship or discrimination.

Membership of the Secular Education Forum is intended for education professionals (including current, former and trainee professionals) and those with a particular expertise in the intersection of secularism and education. All requests to join will be considered after signing up to the mailing list.

Membership of the SEF is generally restricted to NSS members.

## Join the Secular Education Forum

Join our mailing list to apply to join the forum. You'll be kept up to date with news, meetups and opportunities to contribute or volunteer.
