

Secular Education Forum

If you work (are training to work, retired from work or otherwise an expert) in education, then you may be interested in joining the Secular Education Forum (SEF).

The SEF provides expert advice and opinion to the NSS on issues related to education and serves as a network for supporters with expertise in the intersection of education and secularism. SEF members provide advice and feedback on lots of our education work, including reports, research and consultation responses.

We generally restrict membership to existing NSS members. All requests to join will be considered after signing up to the mailing list.

Join the Secular Education Forum

Join our mailing list to apply to join the forum. You'll be kept up to date with news, meetups and opportunities to contribute or volunteer.
